

Appendix-I

Our raw data are counted by each secondary medical zone.
And we used only "Total" columns in our study.

Column "Num per year": the number of suicide as an average by year.
Column "Rate /100,000": the death rate per 100,000 persons.
Column "x100": the ratio (%) for an average of all area.

Secondary Medical Zone ID: 001
